Dear Environmental Protection Agency,

Come on, y'all.

This overhaul of our environmental protections is downright ridiculous. We rely so much on clean water and ecosystems that we cannot afford to limit any environmental care-taking, especially on a river as important to its people as the Willamette.

This isn't even to mention the exploitation done to our land and people by big energy companies.

I urge you to see the integrity of our environment and people as the most important thing to consider in making this decision.

Thank you.

Sincerely,

(b) (6)
